

SUSTAINABLE POLICY

Peter Greven Asia Sdn. Bhd. produces palm oil based metallic stearates which are used in plastics, rubber, pharmaceutical, food and cosmetic industries.

Our mission is to provide superior products and services that meet the expectations of our customers and stakeholders by adhering to RSPO and MSPO principles, environmental and social interests through continuous improvement of the processes and technologies.

We are committed to:

- i) Ensure that all our processes comply with the applicable statutory and regulatory requirements.**

Minimize negative impact to the environment and users by adopting good manufacturing practices.

- ii) Provide a safe and healthy environment for the employees to work**

Continue to train/develop skilled and competent employees

Provide a fair and equal opportunities for employment regardless of gender, race, age, disability, ethnic or cultural origin, religion or beliefs.

- iii) Support the production of sustainable palm oil based metallic stearates through responsible sourcing, transparent and traceable supply chain system**

Our aim is to achieve excellence in the quality of all our services to customers and other stakeholders.

The management regularly monitors compliance with the company policy, the effectiveness of the management systems and the degree to which the company goal has been achieved..

This policy shall be reviewed annually and communicated to all employees and persons working on behalf of the company.

Darren Chee Weng Ho
